DOE Awards Contract for the Moab Uranium Mill Tailings Remedial Action (UMTRA) Technical Assistance Contract (TAC)

AUGUST 10, 2017

DOE Awards Contract for the Moab Uranium Mill Tailings Remedial Action (UMTRA) Technical Assistance Contract (TAC)

Cincinnati -- The U.S. Department of Energy (DOE) today announced the award of a contract to S&K Logistics Services, LLC of Byron, GA for the Moab Uranium Mill Tailings Remedial Action (UMTRA) Technical Assistance Contract (TAC). This contract is an Indefinite-Delivery/Indefinite-Quantity (IDIQ) from which Firm-Fixed-Price and Time-and-Materials task orders may be issued. The IDIQ contract contains a \$20,000.00 guaranteed minimum value of services and a \$24.5 Million maximum value of services, and has a five (5) year ordering period from the date of contract award. Six proposals were received in response to the solicitation.

The Moab UMTRA Project is to relocate mill tailings and other contaminated materials from a former uranium-ore processing facility (millsite) and from off-site properties known as vicinity properties in Moab, Utah, to an engineered disposal cell constructed near Crescent Junction, Utah.

The scope of this forthcoming technical and administrative services contract will include, but is not limited to: transition; records management; training; information technology and telecommunication infrastructure; safeguards and security; public affairs/community relations; property management (real and personal); documentation support, graphics, reproduction and project integration; change control administration and performance; ground water interim action; quality assurance; environment, safety, and health support; regulatory compliance; vicinity property inclusion surveys; independent verification; revegetation; and augmented technical assistance.
